

# FREQUENTLY ASKED QUESTIONS.

## 1. What is StoneWiz Stone Veneer?

**StoneWiz** manufactures Architectural Stone Wall Veneer which harnesses the elegance and beauty of nature. Our proprietary blend of natural ingredients and the craftsmanship of our artisans has enabled us to create a product which captures the inherent beauty of natural stone without the negative environment impact of mining for natural stone. Our designs have been carefully selected from stones available from all across the world. Our artisans work diligently by hand to add life to the designs and manufacture a product which reflects the awe inspiring beauty of nature.

## 2. Why should you select StoneWiz Stone Veneer over natural stone?

Stone Wiz stones designs have been selected from most sought after designs available in various parts of the world and these designs are not available locally in natural stone.

- StoneWiz L-shaped corner stone pieces give your walls a most authentic and natural look.
- StoneWiz stones have been manufactured using light weight aggregates and much lighter in weight than natural stone.
- StoneWiz stone veneer does not cause the negative environmental impact caused by mining for natural stone.
- StoneWiz manufactured stone as compared to traditional natural stone is lightweight, easier and faster to install fungus resistant, eco friendly and require very little maintenance.

## 3. How are StoneWiz stones sold?

Flat pieces are sold by the square feet and corner pieces by the linear feet.

## 4. How are StoneWiz Stones packed for transport?

**StoneWiz** stones are available in cardboard packaging with proper cushioning to ensure safety during transportation.

### **5. Will StoneWiz stone products fade?**

Just as natural stone, StoneWiz stone products will experience normal weathering during the life of the installation, no different than any other cement based material. See Warranty card for details.

### **6. What are the surfaces on which StoneWiz stones can be installed?**

StoneWiz products may be applied on most properly prepared, clean, untreated, structurally sound surfaces such as bricks, masonry, wood, plywood or metal etc. Please refer to StoneWiz Installation Instructions for details on the installation process.

## 7. What is the weight of Stonewiz stones?

Depending upon the design, **StoneWiz** stones usually weigh from 2.5 Kgs to 4 Kgs Per square feet.

## 8. Can StoneWiz stones products be cut?

Yes, **StoneWiz** stone products can easily be cut and trimmed with masonry circular saw.

## 9. Is any maintenance required for StoneWiz stones?

**StoneWiz** stone products are virtually maintenance free. All that is needed is occasional washing of the stone surfaces with plain water to remove any dust or debris that has settled down on the surface of the stone. However, never use any harsh detergents or chemicals on the surface of the stone or scratch the surface of the stone with any hard wired brush or any other object.

## 10. What are the dimensions of the StoneWiz stones?

The length, breadth and thickness of the stones varies between different textures manufactured. The average thickness of the stones ranges between 20mm to 50mm.

## 11. What is the packing size of the stones?

The packaging of the stones is done in cardboard boxes and is done in Square feet for stones and Linear feet for Stone Corners. Depending upon the texture selected the packaging size of the boxes varies from 6 sq ft to 13 sq ft per box.
